## OPEN-ENDED QUESTIONS

## What are the primary strengths and weaknesses of the teaching assistant?

Comments
He is the most amazing TA I have ever encountered. He clearly knows the material well and is always able to give a clear explanation for any question!
He was always making time for students.
He was very friendly and easy to talk to and ask questions to. Sometimes when he taught lecture he would be a little confusing, but I don't really blame him for that because it's not his class to teach. In office hours he was really helpful!
They are great.
GREAT TA! He stayed overtime during office hours one day when I couldn't make it for normal office hours.
A bit challenging at communicating ideas
He is good at explaining the topics and very smart.
Hands down the best ever. I never left an office hour confused or unsatisfied because of Wen. He would stay after the allotted office hours which I really appreciated and when I didn't understand something he was quick to change the approach until I did.
Good at clarifying concepts
na
Super knowledgeable and has office hours like all the time. Best TA duo I've had for any class.
Extremely helpful in clarifying the material that Todd taught and a huge help in understanding how to make sure I was learning the material correctly
TEST PREP GOD. His office hours were so helpful when preparing for the quizzes.
I did not interact with the ta
Did a great job making himself available for help
Able to answer all questions, and was always open to help out with the demonstrations in class.
Awesome dude!
all good
Wen was so patient and so willing to work with students until we fully understood a concept!!
Wen is a great TA and could always help me when I needed it. He was also really quick to answer emails about any course material which was a blessing during late nights while trying to do a demo paper. Sometimes it can be hard to understand him in person which is not that much of an issue because he would explain it in person if I could not understand.
Wen is literally one of the sweetest TA's I've had. His enthusiasm and dedication were off the charts and made this class a lot more tolerable. Thank you Wen!
Amazing at explaining topics, really cared about students' success, receptive to student feedback and modified teaching accordingly.
He is very knowledgeable and kind, helpful.
dont know, i didnt interact
Explained things clearly
Wen showed a clear dedication to the class and the students, always happily answering questions thoroughly and even sometimes staying beyond the scheduled office hours so he could answer the last of the students' questions. I swear that if it weren't for the TAs helping me and my demo groups, my group and I would not have gotten nearly as good of a grade as we did on demos 2 and 3 (especially 2). The same goes for their help on studying before exams. They really went above and beyond for this class.
None, perfect human.
